

It's not a shame to be poor, it's a shame to be cheap.

There is an inscription on the rock, when the rich read this inscription - they cry, when the poor read - they rejoice. When lovers read, they begin to appreciate every moment spent together. And on the rock it is written: "Everything is temporary"

Poverty

Many people believe that the difference between rich and poor is income. Nevertheless, it should be borne in mind that financial resources are only the result of successful work and a special outlook of a person. There is a well-known proverb about this: "Not he who is rich with gold, but he who is with a thought."

You are the ceo of your life.

Kozma Prutkov's aphorism says: "If you want to be happy, be happy!" So it is with wealth. Do you want to be rich? What is the problem, be it!
