completed

Building and nurturing creativity
held on 18th November 2020

Trainer: Laura Vazquez

Duration: 60 minutes

Language: British English

Summary:

Creativity is in all of us. It is that ability that raises humanity above the other living species in our world. Our own attitudes are the key to the realization of the potential within us and our students. To create a climate of creativity in your classroom, you must foster three key elements: physical, mental, and emotional wellbeing. In this webinar I will show you how.
