

POVERTY

By the end of 2020, the poverty level in Ukraine will increase to 45%, which is 17% higher than in 2019!

BREAKING THE CYCLE OF POVERTY:

- Social welfare
- Employment service
- Housing
- Gender and development

The international poverty line is an income level of \$ 2 per day. Another milestone - \$ 1 per day - is already the international level of poverty. The scale of absolute poverty in the world is that almost 1.5 billion people live on about a dollar a day, and the income of almost 2.5 billion (about 40% of the world's population) is less than \$ 2 per day.

the cause of poverty is economic backwardness, unemployment, low labor productivity, etc.

According to World Bank forecasts, due to the coronavirus pandemic, another 60 million people may find themselves in extreme poverty. Globally, this would set progress back three years.
