1. The concept of international internship:

The main idea is the mastering, updating and deepening by participants of special professional, scientific and methodological, pedagogical, social and humanitarian, psychological, legal, economic and managerial competencies, including the study of domestic and foreign experience, which contributes to the qualitative performance of their official duties, extension of their competence.

The purpose of the international internship is to consolidate the experience of scientists and practitioners of Ukraine and the European Union member states, working towards the development of theoretical, scientific and practical approaches to improving the efficiency of the education system, problems of implementation of the Association Agreement between Ukraine and the European Union member states in the professional sector of each member.

Main tasks:

- Establishing contacts with universities in relevant fields;
- Increasing professional competences in various scientific fields;
- Exchange of experience of European achievements in the field of didactics and education in higher education institutions;
- Presentation of scientific developments and achievements of the European scientific and educational platform;
- Obtaining additional and improving existing knowledge and skills in the main areas of professional activity;
- Activation of individual activity and personal development in terms of correspondence and distance learning.
