Prof. dr. Olena Danchenko
Dr. Mykola Danchenko
Melitopol 32315 Ukraine

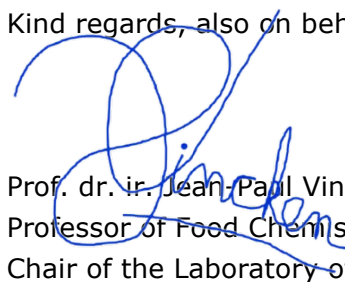

Dear Prof. Olena Danchenko and Dr. Mykola Danchenko,

With this letter I confirm your completion of an online/offline internship entitled "Innovations in organization of the educational process and scientific research at Wageningen University (WU) in the field of Food Science" consisting of the following elements:

- A personal visit to WU in the period of May 16 to May 27, 2022, comprising (i) introduction to education and research endeavors of the Laboratory of Food Chemistry (FCH), (ii) several meetings with professors in phytochemistry, lipids, and animal nutrition research, as well as other professors in the Food Sciences cluster, (iii) getting acquainted with the university's digital learning materials, and (iv) visits of the Wageningen campus, including a visit of the laboratory classes.
- The online/offline work in the period from September 2022 to January 2023 was conducted on cultivation of oat samples of the Ukrainian variety "Spurt" with the support of WU-FCH, followed by performing chromatographic and mass spectrometric studies conducted by WU-FCH scientists to determine the content of avenanthramides. The project plan was discussed in several online meetings and one live meeting in Wageningen (November 2022). The results obtained were discussed during a live visit in Wageningen on January 27, 2023.

It was a pleasure to have you over in Wageningen on the various occasions, and I hope that our interaction will pave the road for future collaborations.

Kind regards, also on behalf of Dr. Mirjam Kabel,

Prof. dr. ir. Jean-Paul Vincken
Professor of Food Chemistry
Chair of the Laboratory of Food Chemistry

Wageningen
University & Research
